

MIDDLEBURY FENCE Co

This coop is the newest addition in our ever expanding line of livestock shelters. The attractive little building comes complete with nesting boxes to house your chicken population. Egg collection has been simplified with the addition of four sliding egg doors. This coop was constructed without a floor to allow the chickens to access the natural ground. In the colder months, lining the bottom of the coop with hay will keep your fowl friends comfortable.

All of our wood sheds, storage sheds, garden sheds, cottages and utility enclosures are built of the finest Vermont lumber and handcrafted for long life and durability. New England weather can really put a wood garden shed or cottage to the test, and Jamaica Cottage Shop's products have proven to stand the test of time.
